Floor Plan

Estimated 2.4GHz WiFi Coverage

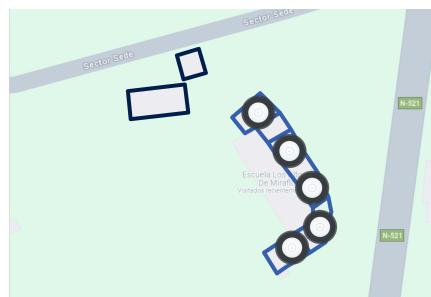

Estimated 5GHz WiFi Coverage

Step 1Completed

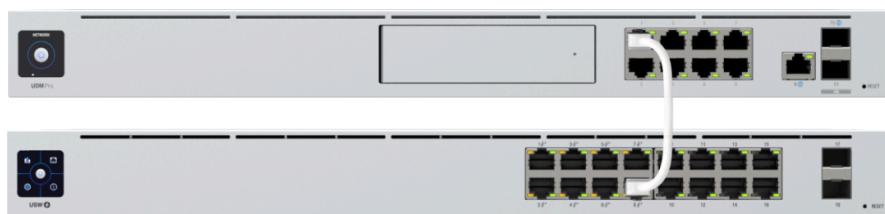

Mount all devices in right places as specified on the **Floor Plan** and add cabling.

**Step 2**Completed

Turn Dream Machine (UDM Pro) on and connect it to the internet. Then, finish setting it up in either the UniFi Network mobile app, or the web application at unifi.ui.com.

**Step 3**Completed

Connect your console and switch with a network cable, as shown below. You can verify this connection on the following **Port View** page.

Step 4

Completed

Connect your other UniFi devices to the switch with network cables, as shown below.
You can verify all connections on the following **Port View** page.
